SIMULATED TILE BATHWARE

escape the ordinary

aquariusproducts.com
escape the ordinary
Design and functionality merge to create easy to clean, beautiful bathware. The Aquarius Simulated Tile line offers the beauty of tile with out the hassle of grout. The AcrylX™ finish ensures you a lustrious white to better match your other bathroom fixtures, while the hard surface finish reduces the chances for scratches. The less porous surface means less time cleaning and more time enjoying your bathtub.

G 4260 WP Tile shown in CentruyStone™ Solid Surface beach with whirlpool option
SUPERIOR FINISH- AcrylX™ AcrylX has a visibly true white, deep lustrous finish that can only be achieved with an acrylic surface. Whether in a warehouse or a new house, an AcrylX product will resist scratching, cracking and chipping and will maintain a “factory-new” finish over its lifetime. AcrylX’s™ UV properties resist fading, low porosity helps maintain luster and make cleaning easier, and other natural properties make it less susceptible to chemicals. AcrylX™ bathware- stronger, brighter white- is covered by an unprecedented lifetime, limited warranty.

CenturyStone™ SOLID SURFACE is patented, solid surface technology that creates a strong, long lasting, seamless, non-porous, solid surface product. Perfect for healthcare, hospitality and up-scale residential applications. Aquarius solid surface bathware is covered by a ten year, limited warranty.

Color samples are representative only. Printing may cause some variations to the color. To purchase color chip samples please contact customer service.

Non standard colors may be found on our websites or requested by contacting customer service. As in all batch manufacturing, slight variations may occur.
